# About US

## DR. JAIKARAN

---

At Dr. Jaikaran, we believe that every smile deserves the best care. As a leading manufacturer of premium toothpastes, our mission is to provide you with toothpastes that not only cleanse but also nurture and protect your teeth and gums with the finest herbal ingredients.

Since our founding in 1993, DR. JAIKARAN has been at the forefront of dental care innovation. Over the years, we have introduced groundbreaking formulas that address various dental needs from Sensitivity to Diabetic, all while maintaining the highest standards of safety and quality. We use only the finest ingredients, carefully selected to ensure that our products are effective, safe, and environmental friendly. We invite you to explore our catalogue and discover our diverse range of toothpastes, toothbrushes and soaps designed to meet various oral and body care needs. For any inquiries or further information, please do not hesitate to reach out to us.

# “WHY PREMIUM SHOULD BE YOUR CHOICE”

## Cardamom

Cardamom is used for its antimicrobial and antibacterial properties, helping to reduce oral bacteria. It also freshens breath, soothes gum irritation, and enhances the overall sensory experience with its pleasant flavour.

## Clove

Clove has analgesic qualities, providing relief from toothaches and soothing gum irritation. Its natural antioxidants contribute to overall oral health, while its distinctive, aromatic flavour adds a refreshing taste to the toothpaste.

## Kulanjan

Kulanjan has natural medicinal properties. It has strong antibacterial and antifungal effects, which help fight harmful oral bacteria and cavities. It is rich in antioxidants, which protect oral tissues from oxidative damage and support overall oral health.

## Cinnamon

Naturally rich in antioxidants, cinnamon is known to have a strong impact on fighting inflammation, it is perfect for helping to prevent gum disease and to soothe toothache.

## Fennel

Fennel is considered as a tonic for teeth and gums. It is a flavouring agent and works as a natural mouth freshener.

## Neem

Neem has anti-bacterial properties which help preventing gum problems and maintaining oral health in a natural way. Neem is also used as an oral deodorant as it purifies the mouth and neutralizes the bacteria that cause bad breath.

## Ashok

Helps to reduce swelling and inflammation in the gums, which is beneficial for conditions like gum disease, gingivitis, or general gum discomfort.

and more.....

Dr. Jaikaran®  
**Herbodent Premium**  
HERBAL TOOTHPASTE WITH *Natural Mouthwash*

**If the toothpaste is  
right then  
dental problems don't bite!**

### Helps to fight out all dental problems

- Herbodent Premium Toothpaste is a unique formulation of 21 natural herbs and ingredients developed by Ayurvedacharya Dr. Jaikaran.
- The herbs with their anti-bacterial, gum tightening and immunising effects provide a complete dental care. In addition, the natural taste of cardamom and clove keeps your mouth fresh for the whole day.
- Herbodent Premium Toothpaste helps to fight out dental problems like pyorrhea, gum bleeding, cavity and more.

# “WHY SENSITIVE SHOULD BE YOUR CHOICE”

## Cardamom

Cardamom is used for its antimicrobial and antibacterial properties, helping to reduce oral bacteria. It also freshens breath, soothes gum irritation, and enhances the overall sensory experience with its pleasant flavour.

## Clove

Clove has analgesic qualities, providing relief from toothaches and soothing gum irritation. Its natural antioxidants contribute to overall oral health, while its distinctive, aromatic flavour adds a refreshing taste to the toothpaste.

## Tomar

Known to treat inflammatory pain of toothache and helps cleanse the mouth, freshen breath, and improve gum health by combating bacteria and inflammation.

## Cinnamon

Naturally rich in antioxidants, cinnamon is known to have a strong impact on fighting inflammation, it is perfect for helping to prevent gum disease and to soothe toothache.

## Long Pepper

Long pepper has antibacterial effects, particularly against harmful bacteria that cause tooth decay and gum disease. Long pepper is believed to have circulatory benefits, which may promote better blood flow in the gums.

## Eucalyptus

The refreshing, menthol-like aroma of eucalyptus provides an instant cooling sensation in the mouth and neutralizes bad breath (halitosis).

and more.....

- Enjoy the benefits of nature's best ingredients for a brighter and healthier smile every day.

# “WHY DIABETIC SHOULD BE YOUR CHOICE”

## Jamun (Black Plum)

Jamun contains compounds like jambosine and jambolin which inhibit the conversion of starch into sugar and help manage insulin sensitivity, which is beneficial for people with diabetes.

## Bitter Gourd

Bitter gourd has natural antimicrobial properties that can help reduce oral infections and promote overall oral hygiene. This is especially important for diabetics, as they are more susceptible to gum diseases and infections due to weakened immune responses.

## Fenugreek Seeds

Diabetic individuals are at a higher risk for gum diseases such as gingivitis and periodontitis, due to weakened immune systems and elevated blood sugar levels. Fenugreek's anti-inflammatory and antimicrobial actions can help prevent these gum infections and maintain healthy gums.

## Black Seed

Black Seed helps reduce inflammation and disrupt the colonization of bacteria that cause periodontal disease. Black Seed is rich in Thymoquinone which helps in the improvement of micro-hardness levels of teeth enamel.

## Madhunashini

Madhunashini, often referred to as "sugar destroyer," is known for its ability to lower blood sugar levels. It contains active compounds like gymnemic acids, which helps in managing blood glucose levels, making it particularly beneficial for people with diabetes.

## Neem

Neem has anti-bacterial properties which help preventing gum problems and maintaining oral health in a natural way. Neem is also used as an oral deodorant as it purifies the mouth and neutralizes the bacteria that cause bad breath.

and more.....

Dr. Jaikaran®  
**Herbodent® Diabetic**

A TOOTHPASTE SPECIALLY CRAFTED FOR DIABETICS

-  SLS FREE
-  ORGANIC HERBS USED
-  VEGETABLE BASE

**Specially designed to support  
oral health of the people  
who have diabetes**

**Presenting you Dr. Jaikaran's yogic and  
Diabetic-Friendly formulation**

- Specially designed to support oral health of those who are diabetic as it has ingredients like bitter melon, Jamun (black plum), fenugreek seeds and more, considered beneficial in diabetic condition.
- Diabetic individuals are at a higher risk of getting gum problems. Herbodent Diabetic Toothpaste helps reducing plaque build-up, preventing bleeding gums, and promoting overall gum health.
- The natural ingredients in Herbodent Diabetic contribute to fresher breath by eliminating bad odour and bacteria from the mouth.

# “WHY NEEM 7 in 1 SHOULD BE YOUR CHOICE”

## Black Seed

Black Seed has natural antibacterial and antimicrobial effects, which can help fight bacteria in the mouth, reducing the risk of gum disease and cavities.

## Neem

Neem has anti-bacterial properties which help preventing gum problems and maintaining oral health in a natural way. Neem is also used as an oral deodorant as it purifies the mouth and neutralizes the bacteria that cause bad breath.

## Cardamom

Cardamom is used for its antimicrobial and antibacterial properties, helping to reduce oral bacteria. It also freshens breath, soothes gum irritation, and enhances the overall sensory experience with its pleasant flavour.

## Clove Oil

Clove oil has analgesic qualities, providing relief from toothaches and soothing gum irritation. Its natural antioxidants contribute to overall oral health, while its distinctive, aromatic flavour adds a refreshing taste to the toothpaste.

## Peppermint

Peppermint has a strong, refreshing aroma and taste that helps remove bad breath, leaving the mouth feeling fresh after brushing.

## Menthol

Menthol has cooling effect and create a refreshing sensation in the mouth. This helps remove bad breath (halitosis) and leaves the mouth feeling clean & fresh.

## Baking Soda

Baking soda acts as a gentle abrasive, helping to remove surface stains from teeth, which can make them appear whiter. It aids in scrubbing away plaque and food particles without being too harsh on tooth enamel.

-  ORGANIC HERBS USED
-  VEGETABLE BASE
-  VEGAN FRIENDLY
-  FLUORIDE FREE
-  PARABEN FREE

## Neem 7 in 1 with **XYLITOL** to keep your teeth **cavity free**

### Nature's solution for a sparkling, cavity-free smile

- Combination of 5 herbs with Xylitol and Baking Soda makes Herbodent Neem 7 in 1 exclusive. Xylitol protects from cavities at the same time Baking Soda helps in deep cleaning.
- Neem, clove, black seed ensure strong teeth and healthy gums at the same time cardamom, menthol and peppermint oil take care of taste and long lasting natural freshness.

# “WHY CLOVE SHOULD BE YOUR CHOICE”

## Akarkara

Akarkara possesses natural antibacterial properties that help inhibit the growth of cavity-causing bacteria in the mouth.

## Babool

Babool has natural antibacterial compounds like tannins and flavonoids, which help fight harmful bacteria in the mouth. This can reduce plaque, bad breath, and the risk of gum infections.

## Bakul

Bakul has astringent properties that help tighten and tone the gum tissues. Also, beneficial in treating gum conditions like gingivitis or general gum discomfort.

## Ashok Bark

Helps to reduce swelling and inflammation in the gums, which is beneficial for conditions like gum disease, gingivitis, or general gum discomfort.

## Clove Oil

Clove oil has analgesic qualities, providing relief from toothaches and soothing gum irritation. Its natural antioxidants contribute to overall oral health, while its distinctive, aromatic flavour adds a refreshing taste to the toothpaste.

## Peppermint

Peppermint has cooling effect and create a refreshing sensation in the mouth. This helps remove bad breath (halitosis) and leaves the mouth feeling clean & fresh.

Dr. Jaikaran®  
**Herbodent® Herbal Clove**  
COMPLETE CAVITY PROTECTION TOOTHPASTE

**The perfect choice to ensure long-lasting oral health with every brush**

**Protects against future oral issues while offering a gentle yet effective cleaning experience**

- Infused with the powerful properties of clove which help prevent toothaches and cavities while strengthening your teeth and gums.
- The natural antiseptic properties of clove work to fight against bacteria, reduce gum inflammation, and promote overall oral health.
- With regular use, Herbodent Herbal Clove leaves your mouth feeling fresh, your teeth strong, and your gums healthy.

# “WHY CHARCOAL SHOULD BE YOUR CHOICE”

## Bamboo Charcoal

Bamboo charcoal helps remove stains caused by food, drinks, or smoking, giving teeth a whiter appearance. It also helps in detoxifying the mouth by drawing out toxins and bacteria, promoting overall oral health.

## Wheat Germ Oil

Wheat germ oil is rich in vitamin E, a powerful antioxidant that helps protect cells from damage. This helps in maintaining healthy gums and preventing gum inflammation. It also helps in moisturizing the gums, preventing dryness, and soothing any irritation or discomfort in the mouth.

## Cardamom

Cardamom is used for its antimicrobial and antibacterial properties, helping to reduce oral bacteria. It also freshens breath, soothes gum irritation, and enhances the overall sensory experience with its pleasant flavour.

## Clove

Clove has analgesic qualities, providing relief from toothaches and soothing gum irritation. Its natural antioxidants contribute to overall oral health, while its distinctive, aromatic flavour adds a refreshing taste to the toothpaste.

## Mint

Helps remove bad breath by providing a fresh and clean scent. Its mild, sweet flavour is less intense than peppermint, making it suitable for people who prefer a gentler minty taste.

## Thyme Oil

Has natural chemicals that can help prevent tooth decay, gingivitis, and other oral infections. It is a member of the mint family hence, acts as a mouth freshener as well.

## Discover the captivating power of **mint** and **charcoal** fusion

**Gives you the confidence with bright smile & fresh breath**

- Herbodent Charcoal is a formulation with ancient ayurvedic ingredients processed with latest technology to promote clean teeth and healthy gums.
- Experience the ultimate fusion of activated bamboo charcoal and mint enhancing your oral health in daily routine.

# “WHY BLACK SEED SHOULD BE YOUR CHOICE”

## Black Seed

Black Seed helps reduce inflammation and disrupt the colonization of bacteria that cause periodontal disease. Black Seed is rich in Thymoquinone which helps in the improvement of micro-hardness levels of teeth enamel.

## Turmeric

Turmeric has anti-inflammatory properties which can help combat gum diseases and gingivitis by reducing inflammation in the gums, alongside potential antibacterial effects that may aid in plaque control.

## Cardamom

Cardamom is used for its antimicrobial and antibacterial properties, helping to reduce oral bacteria. It also freshens breath, soothes gum irritation, and enhances the overall sensory experience with its pleasant flavour.

## Clove

Clove has analgesic qualities, providing relief from toothaches and soothing gum irritation. Its natural antioxidants contribute to overall oral health, while its distinctive, aromatic flavour adds a refreshing taste to the toothpaste.

## Akarkara

Akarkara possesses natural antibacterial properties that help inhibit the growth of cavity-causing bacteria in the mouth.

## Tomar

Known to treat inflammatory pain of toothache and helps cleanse the mouth, freshen breath, and improve gum health by combating bacteria and inflammation.

## Neem

Neem has anti-bacterial properties which help preventing gum problems and maintaining oral health in a natural way. Neem is also used as an oral deodorant as it purifies the mouth and neutralizes the bacteria that cause bad breath.

Dr. Jaikaran®  
**Herbodent® Black Seed**

- It not only helps to prevent gum problems but also ensures fresher breath and healthier teeth.

# “WHY MISWAK SHOULD BE YOUR CHOICE”

## Miswak

Miswak offers several benefits for teeth and gums due to its antimicrobial and mechanical properties. It effectively removes plaque, fights bacteria, and can even promote gum health. Miswak also has natural antiseptic properties that help prevent tooth decay and gingivitis.

## Vajradanti

Vajradanti helps inhibit the growth of harmful oral bacteria that cause plaque, gingivitis, and bad breath. It reduces the risk of infections and promotes a healthier oral environment. Its natural anti-inflammatory compounds soothe gum inflammation and help reduce swelling, pain, and bleeding in gums.

## Cinnamon

Naturally rich in antioxidants, cinnamon is known to have a strong impact on fighting inflammation, it is perfect for helping to prevent gum disease and to soothe toothache.

## Cardamom

Cardamom is used for its antimicrobial and antibacterial properties, helping to reduce oral bacteria. It also freshens breath, soothes gum irritation, and enhances the overall sensory experience with its pleasant flavour.

## Moringa

Moringa contains natural compounds like isothiocyanates that inhibit harmful bacteria in the mouth. It also helps in faster recovery from gum injuries, sores, or ulcers due to its healing and tissue-regenerating properties.

## Aniseed

Aniseed (Fennel) is considered as a tonic for teeth and gums. It is a flavouring agent and works as a natural mouth freshener.

Dr. Jaikaran®  
**Herbodent® Miswak**
